General description

IRP requires no input of transmission factor or window temperature, which simplifies the inspection and together with the 80° lens (T300805) provides by far the largest field of view, which gets as much equipment as possible into the same image, improving context and understanding of issues, which leads to better maintenance decisions being made.

Environmental data

Environment	Type 1
Operating temperature range	Maximum: 100°C (212°F)
Storage temperature range	Optics, maximum: 100°C (212°F)

Physical data

Size (L x W x D)	19 x 84 x 104 mm (0.75 x 3.3 x 4.1 in.)
